

# AstraGin™

## The Ultimate Health Promoting Catalyst from Nature

### DESCRIPTION

*AstraGin™* is the first and only natural food ingredient that has shown in cell, animal and human clinical studies to significantly improve the absorption of many life supporting and health promoting nutrients; such as, amino acids, glucose, and vitamins, into cells, by allowing greater amount of these nutrients to pass from the blood stream into cells.

*AstraGin™* provides for truly improved bioavailability and hence improvement in overall health, fitness, energy, endurance, sense of well being, blood sugar balance, and lean body mass.

*AstraGin™* is a proprietary, all natural plant based formulation derived from highly purified Panax notoginseng and Astragalus membranaceus, using pharmaceutical grade extraction and processing technology.

*AstraGin™* increases chemicals in the human body called “transporter” and “mRNA”. These chemicals determine how much or how little specific nutrients are absorbed into the intestinal cells and thus are available to support and promote our health and well being.

### ADVANTAGES

*AstraGin™* is clinically proven to:

- Increase amino acid absorption by 62%

- Increase vitamin absorption by 50%

- Increase glucose absorption by 57%

- Increase insulin sensitivity by 38%

- Increase ATP production by 18%

- Decrease blood sugar by 19%

- Increase glycogen in muscle (24 hours after strenuous exercise) by 60%
